

This intensive **women's retreat** weekend is about claiming our power and coming back to ourselves. It is for women of all ages, who want to take more joy in their life, connect with their creativity, and have the life that is waiting for them.

Participants will get clarity about ways in which our mother's history continues to influence our choices, health, beliefs and life.

We will explore the spoken and unspoken messages and repeating family patterns passed to us by our foremothers.

We will create a space for healing and returning to our true nature using the Enneagram tool. We will further enhance our journey with feminine ways of learning; storytelling, ritual, music, imagination, intuition, spontaneous art making and much laughter.

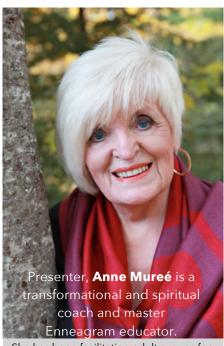

Attend by yourself or with your sister, mother, daughter, friend, aunt...

In the library of every woman's life, our mother is the first book read and the last book put down.
